# Cricut Design Space Tool
Cheat Sheet

GROUP
Keeps shape together while moving in Design Space. Cuts separately on mats. Can ungroup.

SLICE
Must be two layers only. Cuts along all overlaps and creates new shapes. CanNOT be undone.
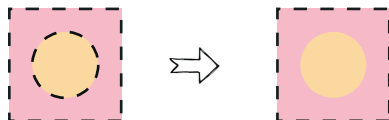

ATTACH
Will be cut exactly as positioned. Great for keeping text together. Overlaps will be cut through. Can detach.

FLATTEN
Turns layers into one print then cut layer. Can be undone.

CONTOUR
Turn off or turn back on any of the cut lines in a design.

WELD
Any number of layers. It all becomes one layer, and any overlaps the cut line becomes the outline of shapes. CanNOT be undone.
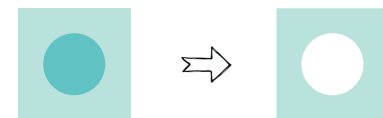

UNITE
Similar to weld - creates a new outline. Can be undone.

SUBTRACT
Deletes the layer that is on top, and anything underneath it. Can be undone.

INTERSECT
Leaves only the part that is overlapped. Can be undone.

EXCLUDE
Anywhere there is overlap disappears. Can be undone.
